ABOUT ME

I am a passionate developer who loves well-structured work, beautiful scenery, and user-friendly design. I am committed to improving my coding skills.

EXPERIENCE

○ Jan 2022- Present

OPDC Data Retriever

Website design to handle data from CKAN, monitoring information and generate download links for data files stored in the database.

○ Aug - Nov 2022

Internship at Globish Academia

Frontend Developer

Created web application name groword, it is a basic English practice game designed for kids aged 5 to 13. This game helps children learn spelling and remember vocabulary from various categories.

○ Jan 2021 - Apr 2023

Shooting Practice Kit IoT

Senior Project

IoT-based shooting practice kit that prioritizes safety by using laser bullets instead of real bullets. It integrates with IoT technology to send real-time data to a mobile application, allowing users to view live score and analyze their performance.
